

WIRE TENSIONING SYSTEMS

ขอเกี่ยวลดิฟฟ้า ผลิตจากวัสดุขันดี ทำหน้าที่ยึดลดิฟฟ้าตันสายและปลายสาย หรือช่วงโคง

ES-CNT2

Compression Spring Limiter

- Available in a standard tension (silver) spring which can tension 1.2 mm wires and a heavy tension (gold) spring which can tension up to 1.6 mm wires
 - It eliminates galvanic reaction between dissimilar metal thus reducing rust and can be used with any type of wire
 - Available in black and white for aesthetic reasons

ES-DT/mn

Mini Nylon Titan Tensioner

- The fence needs to be tensioned after installation, especially when the system needs maintenance due to sagging wires
 - It eliminates galvanic reaction between dissimilar metal thus reducing rust
 - Ideal for tensioning wires up to 1.2 mm galvanised or stainless steel, and up to 1.6 mm aluminium wire
 - A large headed screwdriver, which is generally easily available, is used to turn the spindle

ES-CTN2HB

Hybrid Nylon Tensioner

- Offers what the compression spring and the mini nylon titan has to offer in one easy to use system. Available in a standard tension (silver) spring which can tension 1.2 mm wires and a heavy tension (gold) spring which can tension up to 1.6 mm wires
 - Combination of two tensioning systems, an active system to expand and compress as required, and the mini titan can take up any slack that has been created over time

ES-CTNTBB

Hybrid BB Heavy Duty Nylon Tensioner

- A hardy heavy duty tensioner for all weather types
 - Can tension from a 1.2 mm up to a 2.5 mm wire, making it very versatile
 - It eliminates galvanic reaction between dissimilar metal thus eliminating rust and can be used with any type of wire

ES-H/LT

Large Tail Hook

- Stainless steel hook for long life expectancy
 - Large tail to fit the Nemtek range of tensioning devices
 - Quick fit onto the Nemtek round and flat bar insulator
